Major ~~Part B~~ for December 1896

SUBJECT.

Exclusion of Kuruvalli Bavikere &
from the Municipal limits of Shim
~~Hobli~~ halli Town, Shimoga Dist.

Indexed
AB

W D 88—GPB—50,000—24-7-16

Sub Collr

The matter for disposal relates solely to the Mg of Thiruthanalli. We need not concern ourselves with the remaining municipalities for the present.

L. F. 65 95

The Dy Comr recommends, with the approval of the Board, that the Kunnalli Bazaar Street may be excluded from the Mcl limits, as it consists of isolated houses, and the Mg is too poor to look after the same. This may be approved, and a notification defining the proposed limits may be called for.

4/
18/11/96

The request came from the people themselves. Some 21 houses are close to a Hill-tal some distance from the rest of the town. The merchants therein want to be excluded from Mcl limits. The other houses on both sides of the street are in a poor state of cultivation. It is not therefore proposed to exclude them. Accordingly notice

Read

Letter No $\frac{438}{37}$ dated 29th October 1896 from the Deputy Commissioner of the Shimoga Dt submitting a the Sketch plan of the town of Shirthahalli and stating that the limits of the ~~Municipality~~ Municipality of Kumsi were fixed in the Proceedings of the Municipal Board dated 25th July 1883 and that similar information in regard to the Municipal limits of the remaining towns will follow.

Order thereon:

From the sketch plan received with the above, it would appear that only some of the houses situated at Bonikere to the west of the Tunga river" are proposed to ~~exclude~~ be excluded, the others being still included, within municipal limits. It should be reported why the remaining houses, which are likewise situated to the west of the river, may not similarly be excluded as being inconveniently situated for purposes of Supervision over conservancy and the execution of public works.

2 Such portion of the town as is proposed to be excluded from municipal ~~town~~ limits, has been marked in red ink in

the plan. But it does not exhibit the boundary line of the town as now existing nor have the names of roads &c in the inhabited portion of the town or other physical features been marked. The plan and the papers received therewith are herewith returned for re-submission with the omission being supplied.

3. A Sketch plan, showing clearly the municipal limits of the Kumasi town as defined in the Proceedings of the Kumasi Municipal Board, should also be submitted with a notification for approval of Govt and publication in the Gazette

4. The early submission of information in regard to the Municipal limits of the remaining towns will be awaited.

5. It is desirable that boundary stones should be fixed in consultation with the D C & A and a notification clearly defining municipal ~~town~~ limits of each town should be submitted for publication in the Gazette.

Secretary
17/11/96

To
The DC Kumasi

Translation of the Proceedings of the Municipal Board of Thirthahalli at a meeting held on the 4th February 1894.

Date of meeting 4. 2. 94.

Mr. P R. Venkatasubbaiya, Vice President and Auditor.

Present

1 Mr. Perreswami Pillay Hospital Assistant.
2 " K. Srinivasa Row.
3 " K Venkata Row.
4 " Katte Basavamma
5 " A Meeya Saheb.

Absent.

1 " T Naramahar
2 " B Mariyahar
3 " M Siddalingamma
4 " A Lakshmiramanappa.

On the representation to the Deputy Commissioner, this morning of some of the people living within the Thirthahalli Municipal limits on the other side of the Thunga River that as their houses were situated in the

midst of hillocks, they never derived any ~~bene~~ benefit from the Municipality, the Deputy Commissioner had passed an order that the Municipal Board should consider this question at a meeting to be held on that day and report as to what portion of the town on the other side of the river requires to be necessarily excluded from the Municipal limits.

On a reference to the Municipal accounts, it appears that there are 60 houses on the other side of the river, and that, out of these 60 houses, 3 houses are deserted. The Municipal tax on the remaining 57 houses amounts to Rs 146.

It is necessary that the main Street running east to west opposite to Pallaye mutt should be included within the municipal limits.

Just behind this Street there are 21 houses situated in the midst of hillocks and trees and on which a tax of Rs 14-8-0 is being levied by the Municipality. The portion on which these 21 houses are situated may be excluded from the

Municipal limits. This may again be included within the Municipal limits if there are prospects of decent buildings being erected thereon.

Out of the municipal tax due on these 21 houses, a sum of Rs 10.12—0 has already been collected and that the balance (3-12-0) still requires to be collected.

It is, consequently, proper to exclude this portion from the Municipal limits from the next year.

The tax due on the remaining 37 houses amounts to Rs 131-8-0.

Deducting half the revenue from this, there remains the other half which is a little in excess of the salary of a Sweeper.

The members are of opinion that the above resolutions may be recorded.

The inhabitants of Karuvale Village attached to Mettur Magani in the Thirthahalli Taluk presented a petition to the Dy Collector on the 29th November 1891 complaining that the Municipality has not done any thing in the way of improving the Sanitary condition of the Village, that proper roads are not opened & that the Sweeper employed refuses to remove the rubbish &c and praying that proper arrangements may be made to afford facility for them to walk about in these parts & to secure convenience.

The Dy Collector forwarded this to the Amildar for necessary roads being formed with the help of the petitioners and members of the Board.
The Shaikdar made enquiries & recorded their Kaifyat to the following effect:

We have opened foot paths in this part of the Village out of our private funds. As our houses are situated near the hill, if a high road is formed, the rain water falling on the hill is likely to cause damage to the roads. We are not

all very poor. The Govt. should get the roads formed. If this cannot be done, the municipality may be abolished; our houses are not situated in a row but are scattered here & there in the midst of hills.

one Siddappa and Dyavappa, inhabitants of Kuruvali Village complained to the Dy Commr by means of petitions on the 31st January 1894, that their thatched huts were taxed at Re 1 each & that the same might be reduced. on the 1st petition, the Dy Commr passed an order that the Amildar should convene a meeting of the Board and submit their resolution excluding this portion of the Town from the Municipal limits.

The proceedings of the Board is translated & attached.

On 23-1-95 the inhabitants of the said village presented a petition to the Dy Commr complaining that in spite of the orders passed by him last year during Jamabandi to exclude this portion from the Municipal limits, the Taluk authorities have been collecting the Municipal tax and praying that for the abolition of the tax

This petition was sent to the Amildar for report as to what action had been taken on the order passed by him in this connection during the Jamabandi time of the previous year

In the meanwhile i on the 23 4 95 the above villagers presented a similar petition to the Asstt Commissioner. This officer passed an order to the effect that the procedure of the Amildar in recovering the tax from the villagers on the face of the Dy Commrs order on the Proceedings of the Board dt 4-2-94 is highly objectionable, that he was requested to expedite the transmission of his reply to the queries put by him on the Proceedings of the Board Dt 28 3 94 in enquiring whether the boundaries of the Thenthakalli Municipality were fixed or.

The Amildars reply dated 11-7-95 runs to the following effect.

The boundaries were fixed by the Board at a meeting held on 7 7 1873, the Nakase (plan) prepared accordingly was submitted to the Dy Commr and returned after approval

ed as follow:

East. The Bridge of Kusavati
West - The bridge of Bale Bel
North - The moat or ditch of Sarpa-
Judde.

South - The hillock of Kurivalli
Situated above Bonkure
on the other side of the river.

Thus clearly shows that Bonkure falls
within the Municipal limits.

The Auditor considers that the ...
abolition of the Municipality is
desirable for the following reasons:

(1) Bonkure is not in a position to
derive any benefit from the Muni-
cipality

(2) The municipality also will not in
any way be benefitted by including this
portion.

(3) The Villagers do not want the
Municipality & they often prefer
complaints

(4) The members of the Board also
consider that this portion should be
excluded from the Municipal
limits.

(5) These houses are situated in
the midst of hillocks at a dis-
tance from the other part of the
village.

(6). The road leading to these houses
does not lead to any other place
but simply ends there.

He further states that already ~~...~~ the
whole amount of Tax was collected with the
exception of Rs. 8 for which year
the Tax may be abolished
from the next year

No 182/19

Enclosure

In forwarding herewith for information and kind return the Thirthahalli amildar's report No 68 of the 11th ultimo has the honour to request that Sanction of Government may be accorded for excluding the Kurwalle Boreikere Street from the Municipal limits of the Thirthahalli [illegible].

The amildar and Municipal members of Thirthahalli strongly recommend that this portion of the town should be excluded from the Municipal limits as the Municipality is not in a position to look after the isolated houses in this part of the town
